When you add it up, you'll see why K & E has a reputation for excellence in Kansas and Missouri. And we can help you protect your reputation as well. Torn up sidewalks and parking lots can cost you:

**Your Image** - you never get a second chance to make a first impression.

**Unwanted Lawsuits** - employees or customers can fall on your property.

**Auto Accidents** - you may be paying for vehicles damaged by potholes and loose gravel.

When customers see sinking sidewalks, crumbling curbs, and parking lots with potholes, it reflects poorly on the tenants, businesses in that property, and you. Fix it before you get complaints, lose business, or worse, get a lawsuit. One quick call to K&E Flatwork will have that concrete fixed in a flash and your reputation back on solid ground.

## **Why K&E Flatwork?**

### **We Specialize in Commercial Concrete Repair**

#### **Professional Quality**

At K&E Flatwork, we pride ourselves on maintaining professional standards with our work and our staff. We employ only highly trained concrete professionals to ensure your project is done on time, on budget and to the highest standards. When it comes to the quality of our work, there is no gray area.

#### **Excellent Customer Service**

We can replace parking lots, curbs, drives, stairs, ramps and more. And no one beats our customer service. Your project will be overseen from beginning to end by a dedicated Project Manager.
